ARCTIC SAGA: EXPLORING SPITSBERGEN VIA THE FAROES AND JAN MAYEN

Ideal for first-time guests to the polar regions, Arctic Saga: Exploring Spitsbergen via the Faroes and Jan Mayen allows you to venture to some of the most remote islands on Earth, observe fascinating history and culture, and experience the dreamlike wonder of the midnight sun. Sailing across the North Atlantic, you will be immersed in the Arctic's rugged beauty, highlighted by visits to the awe-inspiring and unspoiled destinations of Fair Isle, the Faroe Islands, Jan Mayen and Spitsbergen. Prepare to be amazed by an environment different from anything you've ever witnessed, featuring immense fjords, towering glaciers, soaring sea stacks and coastal cliffs teeming with seabirds by the thousands. Observe reindeer, seals and whales in their natural habitat under a sunlit sky in the middle of the night. Guided by the most knowledgeable and passionate team in the industry, go where few others have gone, and return forever changed by the rich history, distinct culture and unforgettable backdrop of the Arctic.

ITINERARY

Day 1 Arrive in Aberdeen, United Kingdom

Arrive any time on Day 1 and make your way to your included hotel. The gateway for your Arctic adventure, the Scottish city of Aberdeen has many monikers, but its most famous is Granite City, as it was once the granite capital of the world. Wandering the streets, you'll soon see why, as the

Victorian buildings sparkle in the sun. A bustling cultural hub, Aberdeen also offers a range of museums, galleries, theaters, shops, cafes and restaurants to explore.

Day 2 Embarkation Day

Today you will have some free time before being transferred to the port to board your ship. As you set sail this afternoon, you'll want to be out on deck, camera in hand--the area's coastal waters offer excellent possibilities for spotting bottlenose and white-beaked dolphins, harbor porpoises and minke whales.

Day 3 Exploring Fair Isle

The U.K.'s most remote inhabited island, the extraordinary Fair Isle is located halfway between the Shetland and Orkney Islands. Boasting a rugged beauty, Fair Isle's landscape is diverse, with fields and moors dominated by seaside cliffs and an astounding number of sea stacks, natural arches and caves. Despite its small size, the island offers activities for history, nature and photography buffs alike. Visit the museum to immerse yourself in local artifacts, photos, knitwear and other historic memorabilia. Don't forget to snap a shot of the circa 1935 classic red phone booth by the post office! In terms of wildlife, orcas are native to the waters around Fair Isle, and they sometimes come close in pursuit of seals. But the island is best known for its coastal cliffs teeming with seabirds in spring and summer. The star attraction is the Atlantic puffin, a clown-like bird that burrows in nests in the grassy flat tops of the island's cliffs. Photographers will surely want to capture pictures of their bemused expressions, and Fair Isle's easily accessible grassy banks make it one of the best places in the Shetlands (if not the entire Scottish Isles!) to observe these colorful creatures. Northern fulmars, kittiwakes, storm petrels, razorbills and guillemots may be spotted soaring over the open waters. Visitors to this community of crofters, artisans and artists may be able to pick up a traditional Fair Isle sweater to keep warm during the rest of your Arctic voyage.

Days 4 and 5 Exploring the Faroe Islands

Known for its beautiful, unspoiled landscape, with verdant pastures giving way to rugged, steep cliffs, the Faroe Islands have a storied past, though the details of the archipelago's early history remain mysterious. The first settlers may have been seventh-century Irish monks seeking solitude on these islands

far removed from any continent. Their isolation ended in 800 AD, with the arrival of Norse farmers, and Norwegian colonization continued throughout the Viking Age. Today, many of the inhabitants of the Faroe Islands, now a self-governing country within the Kingdom of Denmark, are descendants of Norwegian Vikings, and speak Faroese, a descendant language of Old Norse. We will have two days to explore this seldom-visited archipelago made up of 18 rugged islands located about halfway between Scotland and Iceland. The mighty North Atlantic is omnipresent wherever we go with no place on the Faroe Islands farther than 3 miles (5 km) from its shores. The sea has always dominated life on the Faroes--throughout history as much as today: rich fisheries, magnificent ocean views and thriving sea bird colonies make up this rare Nordic jewel-- often referred to as Europe's best kept secret. We will spend a day exploring the outer islands of the archipelago, separated by narrow sounds and fjords, and delight in their surreal landscapes, dramatic cliffs, and rock formations. You'll see green valleys engulfed by steep mountains, protecting picturesque villages with colorful turf-topped homes. Wind, weather and sea conditions will influence and shape our activity options, but we will of course always keep our eyes out for marine and bird life, especially the iconic Atlantic puffin. Our second day in the Faroes will be dedicated to the capital city of Torshavn, where the Vikings established their government in 825 AD. One of the world's smallest capitals, the picturesque Torshavn has a relaxed vibe and a number of historical and cultural sites. Meander the maze of narrow laneways of the Old Town, admiring the quaint wooden houses with traditional sod roofs and white paned windows. If you're looking for more action, a hike to historic Kirkjubøur not only unlocks some of the country's best medieval history but also rewards with sweeping views over the southern islands of Koltur, Hestur & Sandur. Or perhaps you'll prefer to wander the charming harbor, filled with cafes, pubs and old warehouses, and simply gaze out at the sea while sipping a latte.

Days 6 and 7 Cruising

Say goodbye to the Faroes as we cruise toward the world's most northerly volcanic island, Jan Mayen. There are several activities to keep you engaged while at sea. Learn to identify seabirds gliding alongside your ship, attend dynamic presentations by your Expedition Team, relax in our polar library or simply spend some time on deck, admiring the ocean views. With your binoculars and camera at the ready, keep your eyes peeled for the blow of a humpback, blue or fin whale. Encounters with minke whales or orcas are also possible, since their curiosity can bring them near the ship. If you're lucky, you may even see harp seals.

Days 8 and 9 Exploring Jan Mayen

North of the Arctic Circle, about 280 miles (450 km) east of Greenland and 340 miles (550 km) north of Iceland, the mysterious Jan Mayen rises from the depths of the North Atlantic Ocean. Often shrouded in thick fog, the small mountainous island was declared a nature reserve in 2010 and is rarely visited, save for the 18 rotating personnel of the Norwegian military and Norwegian Meteorological Institute, who are the only year-long inhabitants, save for some additional personnel during the summer. Landing here will be dictated by the weather and sea. If conditions allow, as we approach, keep watch on deck as the spoon-shaped island's highest summit emerges. At 7,470 feet (2,277 meters) high, the breathtaking Beerenberg volcano features a symmetrical cone shape and impressive glaciers that spill into the sea. During the summer months, the island's lower landscape is covered with grass, moss and a smattering of hardy flowers that add a burst of color to the otherwise barren black lava terrain. One site we hope to visit is Olonkinbyen and the surrounding area. Named after Russian-Norwegian polar explorer Gennady Olonkin, it's the island's only settlement and the location of the meteorological station, where you may have the chance to learn about polar research while seeing how weather is monitored at the top of the world. Another option might be the black sand beach at Kvalrossbukta, where the remnants of a 17th-century Dutch whaling station and a large northern fulmar colony can be found. In 1632, two Basque ships landed at the small bay and plundered the station. A Dutch party was sent here the following year to protect the land stations during winter, but all seven men perished from scurvy. Whaling in the area came to an end about 20 years later. If conditions permit, we may view the volcano and the stratified cliffs of the spectacular north coast as we Zodiac cruise around the island, searching for wildlife. Designated an Important Bird Area by BirdLife International for the large numbers of breeding seabirds, Jan Mayen supports colonies of northern fulmars, little auks, glaucous gulls, kittiwakes, and black and Brunnich's guillemots (thick-billed murres). And if we are fortunate, you might see "sea parrots," the Atlantic puffin again. The waters here are rich feeding grounds for marine life, so keep a lookout for minke, fin, blue or humpback whales.

Day 10 At Sea

As we sail farther north, spend some time with your shipmates in the lounge, swapping stories and photos, or pause for a moment on the bridge, joining in as your Expedition Team looks out for whales, seals and a variety of seabirds.

Days 11 to 13 Exploring Spitsbergen, Svalbard

Rugged, wild and situated entirely within the Arctic Circle, the largest island of the Svalbard archipelago is unforgettable. From immense glaciers to lush tundra to polar deserts, the landscape here is as varied as the wildlife. As we explore the fjords of the southwestern corner of this magical island, it won't take long for you to see firsthand why Spitsbergen is the "wildlife capital of the Arctic." Some areas we hope to visit include Hornsund and Bellsund fjords and Hombreen Glacier. The possible landing sites at Hornsund, the island's most southerly fjord, have rich histories. You may visit Isbjornhamna, a bay at the entrance of the fjord, where we hope to explore colonies of delightful little auks. You may also spot Svalbard reindeer and hike to a viewpoint for views of calving glaciers. A 12-mile (20 km) long sound, Bellsund lured miners a century ago to its natural resources. Today, visitors come to Bourbonhamna and Calypsobyen to see historic mining and trapper sites and marvel at the magnificent vistas. It may also be possible to hike along the colorful tundra, dotted with flowers bursting for a taste of sunshine, and discover old whale bones.

Day 14 Disembark in Longyearbyen and Fly to Helsinki

The time has come to say farewell to your newfound friends and Expedition Team. After disembarking, spend the day exploring the frontier-style settlement of Longyearbyen before catching the charter flight to Helsinki.

Please Note:

Embracing the unexpected is part of the legacy - and excitement - of expedition travel. There are no guarantees that we can achieve everything we set out to accomplish. A measure of flexibility is something all of us must bring to a voyage. There are nearly 200 recognized sites in the Antarctic Peninsula and South Shetlands and the places mentioned above may be changed to others equally as interesting.

YOUR SHIP: OCEAN EXPLORER

YOUR SHIP:	Ocean Explorer
VESSEL TYPE:	Polar Expedition
LENGTH:	342 ft (104.4 m)
PASSENGER CAPACITY:	138
BUILT/REFURBISHED:	2021

Ocean Explorer, the newest addition to our fleet, is modern, elegant and purpose-built for polar exploration. The 138-passenger vessel has been designed with the latest in expedition ship technology. One of the ship's key features is the ULSTEIN X-BOW®, a marine engineering innovation that ensures a comfortable and smooth sailing experience thanks to the inverted bow. Located at the bow is the two-story, light-filled library, which introduces a welcome airiness to the expedition ship.

Spacious cabins feature a modern, bespoke Scandinavian design and almost all have verandas. Guests can relax and find comfort in the spacious gym, sauna with large windows, and two outdoor Jacuzzis.

Ocean Explorer features ample outdoor viewing areas and multi-height outer decks, which are ideal for long-view photography and wildlife viewing. The vessel is equipped with a fleet of 15 Zodiacs that enable guests to get off the ship quickly and safely for off-ship adventures. In addition to the well-appointed and spacious public areas, Ocean Explorer has an industry-leading mix of sustainability systems, including fuel-efficient Rolls Royce engines.

Two Story Library

Light-filled interior library--at the bow of the ship-- allows guests to sit and relax indoors while taking in the surrounding polar landscapes from their choice of two levels.

Leading Edge Sustainability

With the latest sustainability technology in polar expedition, the ship features fuel-efficient Rolls-Royce engines and the ground-breaking MAGS gasification system that converts waste into energy, eliminating the environmental impact of waste transportation.

ULSTEIN X-Bow

In addition to forming the double-story library, the innovative X-Bow design ensures calm, energy-efficient sailing in rough waters.

High Observation Outdoor Decks

Observation areas on Decks 7 and 8 allow for higher, longer-view landscape photography while contending with less sea spray.

Quiet and Comfortable

Spacious and luxurious cabins ensure your quiet ambience with no sound disturbance from adjoining cabins--and almost all cabins feature a balcony for outdoor viewing.

Stunning Interior Design

Each interior element was carefully hand-picked by designers for you to enjoy, from the dramatic two-story forward lounge, the floor-to-ceiling glass refuge in the library, to the grand fixtures and luxe furnishings throughout the ship.

Main Dining Room

Wild Earth Travel
Small Ships, Big Adventures

info@wildearth-travel.com | **wildearth-travel.com**

Contemporary meets cozy in this modern dining room with its stylish lighting and contemporary art. Located on Deck 5, the Main Dining Room seats 144 guests, and features expansive floor-to-ceiling windows that open onto the spectacular polar wilderness.

Private Dining Room

Tasteful and intimate. This stylish, private dining room on deck 5 provides a relaxed dining experience--with views of the polar landscape--for up to 36 guests.

The Latitude Bar

A popular social hub on Deck 5, the beautifully-lit Latitude Bar--with its lush sofas and faux marble-topped end tables--is large enough to seat 46 and is ideal for enjoying a quiet drink on your own or hanging out with friends.

Library

Located on Deck 6 at the top of the gorgeous atrium staircase, this beautiful Library with floor-to-ceiling glass, accommodates up to 47 people

Dry Sauna

After a day of exciting off-ship adventure, guests can relax on the sauna's traditional wood benches while gazing at the polar wilderness just outside the large sauna windows. Accommodates 15 people on Deck 7.

Fitness Center

Stay fit with the latest work-out equipment in the Fitness Center on Deck 7.

Jacuzzis

Two outdoor Jacuzzis on deck 7, at the ship's stern, mean you can relax alfresco while soaking up the breath-taking polar views.

Observation Lounge

This stylish lounge at the top of the ship guarantees incredible views. Guests also frequent this spacious lookout on Deck 8 to enjoy cocktails and conversation with fellow travelers. Seats 63.
