FROM ICELAND TO THE HEBRIDES - A VOYAGE FROM REYKJAVIK TO OBAN

Join us aboard the MS Hebridean Sky for a voyage which combines an in-depth exploration of Iceland with time spent exploring the remote and little visited Faroe Islands and the Hebrides. Iceland, Europe's least populated country offers the visitor a truly unparalleled experience of elemental forces at work and during our exploration we will witness the immense scale of the landscape dominated by towering snow-capped mountains, thundering waterfalls and spontaneous erupting geysers as we learn of the centuries old legacies of a Viking and Norse heritage. We will visit some of its most dramatic areas and, whilst we sail its waters, will look out for humpback whales, orcas, white-beaked dolphins and observe the colonies of seabirds.

Leaving Iceland we call into the Faroe Islands, once a stopping point for Viking explorers, this mysterious collection of 18 islands set in the North Atlantic, halfway between Norway and Iceland, is a paradise for walkers and bird watchers. The intriguing history of the islands can be traced back to the Irish monks who settled here in the 6th century and the 9th century seafaring explorers.

Continuing on we spend a day in the magical Outer Hebrides where we will visit the mysterious Callanish Standing Stones on the Isle of Lewis and enjoy a Zodiac cruise around the spectacular basalt cliffs of the Shiant Islands before arriving in Oban. The MS Hebridean Sky is perfect for our voyage, with her expert team and fleet of Zodiacs we will be able to land on remote islands and cruise close to shorelines and cliffs crowded

with birdlife. With just over 100 travelling companions, the atmosphere on board is warm and friendly and ashore with our local experts we will divide into small groups thereby enjoying a more comprehensive and peaceful experience.

experience.

Day 2 Stykkisholmur.

During breakfast we arrive at Stykkisholmur, located in Breidafjörður Bay and surrounded by an archipelago of islands. The town is famed for its beautiful and well preserved old houses and is also the gateway to the Snaefellsnes Peninsula which is dominated by the Snaefellsjökull volcano, regarded as one of the symbols of Iceland and known as the setting for Jules Verne's "Journey to the Centre of the Earth". A morning tour will include a drive through the lava landscape to the glacier visiting pretty fishing ports and beaches along the way. Spend the afternoon at leisure in the town.

Day 3 Western Fjords.

This morning we enter the Western Fjords, an isolated but spectacular area of Iceland. We will explore Isafjardardjúp with the MS Hebridean Sky and, depending on local weather conditions, we hope to land on Vigur, a serene little island with only five residents but home to many more puffins, eider ducks, black guillemots and Arctic terns. We will also visit Iceland's only extant windmill dating from the 19th century. Return to the ship for lunch and an afternoon cruising.

Day 4 Akureyri & Hrisey Island.

Akureyri is a delightful town on the north coast of Iceland and not what you would expect to find in such a remote location. In summer months the gardens and window boxes are ablaze with colour. This morning we visit the spectacular Godafoss Waterfall where water from the Skjalfandafjöt river falls from a height of 12 metres over a width of 30 metres. From Godafoss we return to the charming town of Akureyri and visit the botanical garden which was founded in 1912 and grows examples of every species indigenous to Iceland as well as an extensive collection of high-latitude and high-altitude plants from around the world. Our tour ends at the Art Alley, where artisans keep their workshops and galleries. In the early afternoon we sail along Eyafjörður, on the lookout for whales, during our approach to Hrisey Island where we will run a series of nature walks. The island is known for its rich and diverse birdlife and approximately 40 species of birds nest on the island.

Day 5 Siglufjörður & Grimsey Island.

Spend the morning in Siglufjörður, a picturesque town that enjoys an idyllic setting in a small fjord backed by mountains. Here in the early 1900s, a booming economy due to the herring industry resulted in a prosperous town with some marvellous Icelandic architecture. Stroll through the town and visit the Herring Era Museum. Sail this afternoon to Grimsey Island. The Arctic Circle bisects this island which is known for its tiny community, basalt cliffs and large variety of birdlife. On arrival join our expedition team members for a nature walk on the island.

Day 6 Husavik.

From our berth in Husavik we will visit the Lake Myvatn- Krafla region, a fine example of the volcanic world with lava fields, boiling and steaming mud pools and steam vents of sulphur and craters. The area illustrates the sheer magnitude of Iceland's forces at work. The lake itself, with beautiful natural rock formations and hot springs, is also a unique ecosystem and the largest migratory bird sanctuary in Europe. For those interested there will be an opportunity to spend time in the natural baths before returning to the ship. The remainder of the day is free to explore the pretty town including time at the excellent whale museum, the exploration museum and quaint local church. Be on deck this evening as we sail. Our expedition team will keep an eye out for one of the many species of whales, the most popular being humpback, minke and blue whales, which are prevalent in this area.

Day 7 Seydisfjörður.

Our last morning in Iceland is spent in the picturesque natural harbour at Seydisfjörður which has preserved its fishing heritage from the early 19th century and its architectural style. On a walking tour we will pass brightly painted and well preserved wooden buildings and visit the shops famous for their Icelandic patterned woollens and crafts. Keen walkers might prefer to join a hike in the nearby Vestdalur Valley which is a protected nature reserve due to its remarkable flora. Walking along the river trail we will enjoy the landscape and waterfalls as well as viewing the abandoned town of Vestdalseyri. Spend the afternoon at sea as we sail towards the Faroe Islands.

Day 8 Vestmanna, Faroe Islands.

After a morning at sea we arrive in the Faroes at the port of Vestmanna, our base as we explore the northwest corner of Streymoy and the nearby cliffs. On a choice of afternoon activities you may wish to board local boats to explore these vertical cliffs that climb almost 1,500 feet, sailing into grottos carved by the surf over the years and watching the thousands of seabirds including guillemots, fulmars and kittiwakes that nest here each summer. Alternatively drive to the beautiful village of Saksun, an isolated settlement situated beneath steep majestic mountains. We visit Duvugaroar, an old farmhouse which is now a museum, and a traditional Faroese wooden church in Kollafjord.

Day 9 Torshavn.

From our berth in Torshavn, capital of the Faroe Islands, we will drive over the hills to Kirkjubour, the island's oldest cultural centre, where we see the ruins of the 13th century St Magnus Cathedral and the 11th century church, still in use. We also visit the 900-year old "Rokstovan", the old bishopric, considered to be the oldest wooden house in Europe. For those feeling active, we will arrange a hike in the hills surrounding the town to discover the local flora and fauna. The afternoon is free to explore the town at your own pace.

Day 10 Suduroy.

Our last call in the Faroes will be at Suduroy, the southernmost island of the group. From the port of Tvoroyri we have a choice of activities. Choose to join an island tour passing the beautiful scenery as we drive between the villages seeing the stunning geology, fjords, tunnels and architecture of the island and end at the southernmost point and the Akraberg lighthouse. In Porkeri we will take the ridge-top road which winds up the mountainside for wonderful views towards the steep cliffs on the west coast, the Beinisvoro promontory to the north and the luscious grass slopes to the east. To locals, this delivers the essence of the Faroe Islands with mountains and fjords, villages and valleys, birds, sheep and nature. Alternatively, those feeling active may wish to join a hike to Hvaanhagi, a beautiful, uninhabited place north of Tvoroyri on the east coast of Suduroy. The view is fantastic towards the three islands Litla Dimun, Stora Dimun and Skuvoy. There are sheep and birds, a valley with a lake and beautiful high mountains. Spend the afternoon at sea as we sail to Scotland.

Day 11 Isle of Lewis & Shiant Islands, Outer Hebrides, Scotland.

On leaving the island capital of Stornoway, we will head across the island of Lewis to the beautiful west coast. Described as Scotland's Stonehenge, the Callanish Standing Stones date from around 3000 BC. There are a total of 32 stones in a circular and avenue design. The stones stand like a petrified forest on the flat top of a peninsula which reaches out into East Loch Roag. We also visit the Dun Carloway Pictish Broch, probably built sometime in the last century BC it would have served as an occasionally defensible residence for an extended family complete with accommodation for animals at ground floor level. Our next stop is the Gearrannan Blackhouse Village, a reconstructed settlement of traditional black houses which were made using dry stone masonry and with thatched roofs. Visit the small museum, enjoy a display of a typical crofting activity such as weaving and take in the views of this dramatic site on the wild Atlantic coast. This afternoon we will board the Zodiacs for a cruise around the spectacular basalt cliffs of the Shiant Islands, a group of little islands located a few miles off the shores of Lewis and an excellent place to spot a variety of wildlife.

Day 12 Oban.

Disembark this morning. Transfers will be provided to Glasgow International Airport and Glasgow Central Railway station at a fixed time.

Your Dining. It is quite a task to create a dining experience as that found on board our Sky vessels when you are cruising in far-flung corners of the globe, indeed it takes a team of highly talented chefs to deliver fresh, varied dishes no matter where you are at sea. Fortunately, our catering teams are well adapted to the world of small ship cruising where no two days are the same and the menus are often scheduled and tailored around the days' excursions. With only one sitting and a maximum of just over 100 passengers, the cuisine on board is of a consistent superior quality that befits such vessels. Where possible and when it meets their high standards, our accomplished chefs will obtain local produce in markets. Such purchases enhance the well-stocked larders and enable the chefs on board to exhibit their culinary skills and bring a local touch to the varied menus, emphasising the international expertise of the chefs on board. Afternoon tea and pre-dinner canapes take place every day in either the comfort of the

Life Onboard. If large resort-style vessels accommodating many thousands of passengers are your ideal, then our ships are not for you as you will not find endless entertainment, round the clock buffets and the people management which is so much a part of today's big ship on board style. However, if like us you prefer a more peaceful life at sea you will find our flagships the perfect vessels. When choosing your next voyage the choice of vessels is astounding. You can select a ship carrying in excess of 4000 passengers with impersonal service or join us aboard the MS Caledonian Sky, MS Island Sky or MS Hebridean Sky where peace, high quality service and attention to detail are the order of the day. We promise there will be no organised entertainment, fancy dress, deck games or any of the usual big ship experiences. Instead, the atmosphere is warm and convivial and more akin to a private yacht or country hotel in which you can learn more about the wonders of nature, culture and ancient civilisations in the company of like-minded people. A little music in the lounge or bar after dinner, Guest Speakers and informative port briefings from our Expedition Leader or Cruise Director and of course good food with wine included at lunch and dinner, all contribute to make any voyage aboard these wonderful vessels a memorable and joyful experience. After a day ashore you will return to the comfort and peace of an exceedingly comfortable ship. The daily programme on board is in the capable hands of our Cruise Director or Expedition Leader and staff who coordinate with the Captain and Officers to make the most of each day. Briefings and talks will be provided

throughout the voyage together with a 'Daily Programme' that is distributed every evening to your suite outlining the next day's activities. Dress on board is casual and relaxed and there will be no 'black tie' evenings.
