GREENLAND IN DEPTH CRUISE

Embark on the Greenland in Depth luxury cruise, a round trip beginning and concluding in Nuuk, Greenland's vibrant capital located on the island's southwest tip. Over eight days, this extraordinary journey navigates the stunning coastal landscapes, allowing you to witness towering glaciers. The voyage offers breathtaking views of Disko Bay and its gleaming icebergs, providing an immersive experience of the world's largest island's unparalleled beauty. Throughout this fascinating itinerary, you'll see remarkable places like Evigheds Glacier, where the icy grandeur of the Greenland Ice Sheet captivates. Visit the remote village of Uummannaq, nestled on a tiny island at the foot of the striking Heart Mountain. Your exploration of Ilulissat, the Icefjord capital, offers insights into local culture with sights of thousands of colossal icebergs calving into the sea from the Sermeq Kujalleq glacier, a UNESCO World Heritage Site. In Qeqertarsuaq on Disko Island, marvel at volcanic landscapes and the Lyngemark Glacier. Engage in thrilling activities during your voyage, including optional kayaking with the expedition team, providing a closer connection to this unique environment. As you journey through magnificent fjords, the potential to observe Arctic wildlife, such as humpback whales, enriches your cruise experience. This Greenland in Depth luxury cruise promises adventure, culture, and nature, offering unforgettable encounters at every enchanting stop.

Home to more than a third of Greenlanders, the capital of Nuuk has a thriving cultural scene including the Greenland National Museum, home to the world-renowned Qilakitsoq mummies. Also known by its Danish name of Godthab (Good Hope), Nuuk's bustling harbour features Nuuk Cathedral and colourful wooden houses, alongside modern architecture. Nuuk also serves as a gateway to Inuit experiences and adventures in the surrounding fjords and mountains.

Day 2 Evigheds Glacier

The Evigheds Glacier, a majestic outflow from the Greenland Ice Sheet, carves through the dramatic Kangerlussuatsiaq Fjord, also known as Eternity Fjord. This 75-km-long waterway is a haven for wildlife, with white-tailed eagles and black-legged kittiwakes soaring above. Calving icebergs showcase Greenland's raw beauty, but sadly like many glaciers, it is slowly retreating due to global warming's impact on this fragile Arctic ecosystem.

Day 3 Qeqertarsuaq

Qeqertarsuaq is the largest town on Disko Island, Greenland's largest island, on its west coast, part of Disko Bay, a UNESCO-listed site for its icebergs. The Lyngemark Glacier rises above the town. The area's hills, basalt columns and black sand beaches reflect its volcanic origin. The area is fertile and home to species not found elsewhere in Greenland. Keep an eye out for its hot springs as we move through floating icebergs.

Day 4 Uummannaq

The word Uummannaq means 'heart-shaped' in Greenlandic and refers to the twin-peaked granite mountain shaped like a heart, which covers nearly the whole northern half of the island. Folklore has it that a piece of your heart remains on the island forever, calling you back. Sheltered by glaciated mountains, this charming fjord region is referred to as the sunniest spot in Greenland and has been a refuge for Inuit migrations for over 4,500 years.

Day 5 Eqip Sermia Glacier

Eqi Glacier, or Eqip Sermia in Greenlandic, is one of Greenland's largest and most active calving glaciers, spanning nearly 4 km wide and towering over 200 m. Visitors can almost always witness calving, where pieces of ice break off the glacier's face, creating deafening bangs and giant splashes that send waves across the bay. The contrast between thunderous calving and the ensuing silence provides a glimpse of Greenland's dynamic icy landscape.

Days 5-6 Ilulissat, Disko Bay

Sailing through the iceberg capital of the world to Disko Bay, the Ilulissat Icefjord is one of the cruise highlights. Given UNESCO World Heritage Site status, the Ilulissat Icefjord is a popular tourist destination, and thanks to the productive Sermeq Kujalleq glacier, thousands of gargantuan icebergs calve from the Greenland ice cap into the sea. The city of Ilulissat is home to many sled-dogs.

Day 7 Sisimiut

The northernmost city in Greenland, just above the Arctic Circle, Sisimiut remains remarkably ice free in winter and is known as an adventure sports hub all year round. Inhabited for more than 4,500 years by the Dorset, Thule and eventually the Inuit people, dog sledding remains a vital form of transportation. The area is home to humpback whales and Arctic foxes in their summer coat.

Day 8 Nuuk

Home to more than a third of Greenlanders, the capital of Nuuk has a thriving cultural scene including the Greenland National Museum, home to the world-renowned Qilakitsoq mummies. Also known by its Danish name of Godthab (Good Hope), Nuuk's bustling harbour features Nuuk Cathedral and colourful wooden houses, alongside modern architecture. Nuuk also serves as a gateway to Inuit experiences and adventures in the surrounding fjords and mountains.
